

BALCONY RESTORATION

A Single-Source Solution for Comprehensive Restoration

Balconies add charm and value to a residence or commercial building. But with exposure to weather and the elements, balconies can show signs of significant deterioration within a few years. Lasting balcony restoration can include the removal of deteriorated concrete, treatment of exposed steel reinforcement, installation of repair mortars, and application of protective, waterproofing coatings.

Our restoration experts work with building owners, designers, and contractors to develop complete balcony repair strategies with customized solutions and high performance, compatible products. Our low-odor, fast curing repair and protection materials ensure that disruption to occupants is minimized, and money is spent wisely.

One source for complete balcony repair:

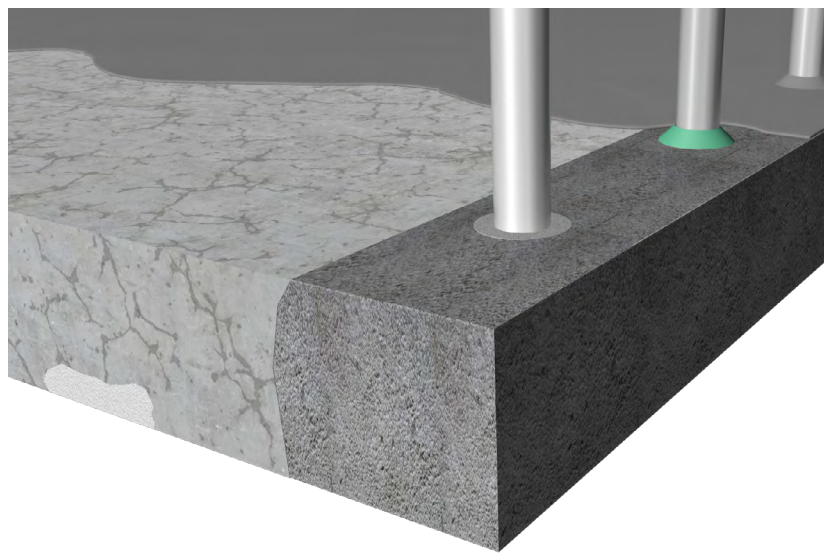

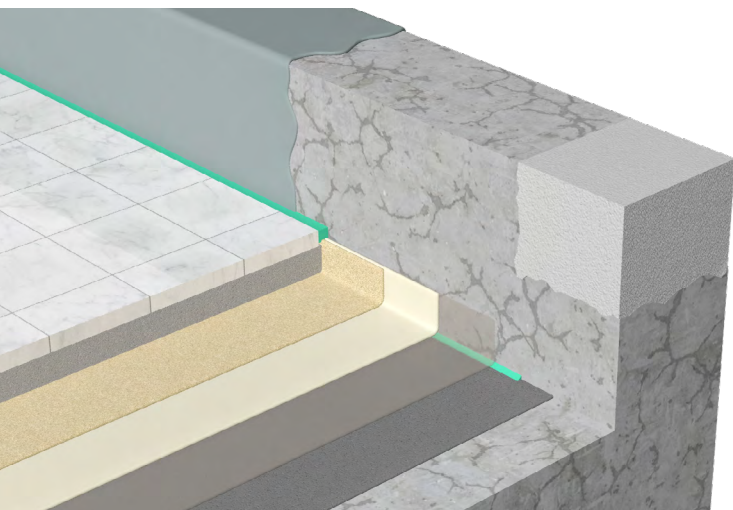

- Industry-leading, single-source warranties available for tested, proven, compatible systems
- Rapid-curing, neighbor-friendly (low odor) and low VOC products available for fast turn-around
- Innovative concrete repair products to restore concrete and protect structural steel to meet safety and load-carrying requirements
- Quick-curing sealants and deck coatings that provide seamless, long-lasting protection

EUCLID CHEMICAL

Balcony Restoration Products

	PRODUCT	DESCRIPTION
EUCLID CHEMICAL	EUcoREPAIR V100	Micro-fiber reinforced, fast setting, very low shrinkage mortar for trowel applied vertical and overhead concrete repair
	EUcoREPAIR SCC FAST/SCC	Pourable and pumpable, micro-fiber reinforced self-consolidating concrete repair that allows for fast stripping of forms and return to service
	EUco ROCK	Pourable hydraulic cement designed for anchoring or grouting applications. Rapid set for fast load bearing and bond strength properties
	VERSASPEED SERIES (100/LS 100/RMC)	Single-component, rapid hardening, low shrinkage, micro-fiber reinforced repair mortar for projects that require traffic within hours
	EUcoWELD 2.0	Liquid latex bonding agent for cement-based repair mortars and concrete that produces epoxy-like strength
	TAMMSPATCH II	Two-component polymer reinforced cementitious mortar for repairs 1/8" to 1"
	EUco RE-COVER	Polymer modified, fiber-reinforced concrete resurfacing mortar for quicker curing repairs 1/16' to to 3/8"
TREMCO	VANDEX SUPER	Waterproof treatment that becomes an integral part of concrete through a crystallization process. Ideal for elevator pits, water tanks, and water treatment applications.
	DYMONIC® 100	High-performance, medium-modulus, low-VOC, UV stable, non-sag polyurethane sealant for expansion & control joints, caulking and more
	VULKEM® OC810	High-solids, one-coat aliphatic urethane membrane waterproofing system for balconies, roof terraces, and mechanical rooms
	VULKEM® EWS UNDER TILE SYSTEM	Tremco PUMA Primer, Tremco PUMA BC (base coat), Tremco PUMA TC (top coat), overburden. Waterproof traffic coating system that utilizes polyurethane-methacrylate (PUMA) technology. For under tile, pavers, or bonded overburden

Euclid Chemical and Tremco are part of RPM International, Inc., whose subsidiaries employ 13,000 people worldwide, and manufacture high-performance coatings, sealants and specialty chemicals in 116 facilities across 26 countries.
