

FAÇADE RESTORATION

A Single-Source Solution for Comprehensive Restoration

Building façades constructed of exposed concrete elements and windows are common for high-rise buildings. Properly constructed and maintained, exposed concrete façades can provide pleasing aesthetics and a long service life. However, as time, weather and the environment take their toll, cracks and voids can develop, destroying the integrity of the building envelope.

Fully-compatible and warrantied product solutions from Tremco Commercial Sealants & Waterproofing and Euclid Chemical provide façade restoration with fast return to service, improved aesthetics and increased service life. From concrete repair mortars to sealants and protective coatings, we provide long-lasting façade repairs that protect tenants and maintain property value.

One source for complete facade repair:

- Industry-leading, single-source warranties available for tested, proven, compatible systems
- Rapid-curing, neighbor-friendly (low odor) and low VOC products available for fast turn-around
- Innovative concrete repair products to restore concrete and protect structural steel to meet safety and load-carrying requirements
- Quick-curing sealants and deck coatings that provide seamless, long-lasting protection

EUCLID CHEMICAL

Façade Restoration Products

	PRODUCT	DESCRIPTION
EUCLID CHEMICAL	EUCOREPAIR V100	Micro-fiber reinforced, fast setting, very low shrinkage mortar for vertical and overhead concrete repair
	TAMMSCOAT™	High-build, decorative, water-based acrylic anticarbonation coating used to protect concrete and masonry
	DURAL EPOXIES	Epoxy-based adhesives for bonding fresh-to-hardened or hardened-to-hardened concrete
	EUCOWELD 2.0	Liquid latex bonding agent for cement-based repair mortars and concrete that produces epoxy-like strength
	TAMMSPATCH II	Two-component polymer reinforced cementitious mortar for repairs 1/8" to 1"
	EUCO RE-COVER	Polymer modified, fiber-reinforced concrete resurfacing mortar for quicker curing repairs 1/16" to 3/8"
	VANDEX SUPER	Waterproof treatment that becomes an integral part of concrete through a crystallization process. Ideal for elevator pits, water tanks, and water treatment applications.
TREMCO	SPECTREM® 1	High-performance, moisture-cure silicone joint sealant with exceptional physical properties. An adhesive for Spectrem Restoration Overlay
	SPECTREM® RESTORATION OVERLAY	Patented silicone dense rubber extrusions solution for restoring leaking skylights, sloped glazing, pressure bar and zipper/lockstrip systems
	DYMONIC® 100	High-performance, medium-modulus, low-VOC, UV stable, non-sag polyurethane sealant for expansion & control joints, caulking and more
	DYMONIC® SIMPLE SEAL	Medium-modulus, preformed polyurethane extrusion designed to bridge joints & provide a waterproof seal on a wide range of substrates
	WILLSEAL® SEISMIC	Pre-compressed, open cell foam primary joint sealant with color-selected sealant facer and capable of +/- 50% movement from the mean gap size.
	WILLSEAL® FR-V	Pre-compressed, open cell foam primary joint sealant capable of FR ratings for 1-, 2-, or 3-hour with color-selected sealant facer and capable of +/- 50% movement from the mean gap size.
	WILLSEAL® COLOR CORESEAL-V	Compressible, closed cell foam primary joint sealant with color-selected sealant facer and capable of +/- 25% movement from the mean gap size.

Euclid Chemical and Tremco are part of RPM International, Inc., whose subsidiaries employ 13,000 people worldwide, and manufacture high-performance coatings, sealants and specialty chemicals in 116 facilities across 26 countries.
