

APPLICATION INSTRUCTIONS

ULTRASEAL® P201A

Hydro-Reactive Mastic

1. PRODUCT DESCRIPTION

Ultraseal® P-201A is a high-performance hydro-reactive mastic for sealing and waterproofing passing bodies and cracks.

2. BASIC USES

Ultraseal P-201A is a waterstop used in new construction and repair applications. It can be applied to damp and uneven surfaces and functions in a wide range of temperatures and ground water conditions. Basic uses include:

- Approved for use in TREMproof Amphibia system
- Control joints
- · Expanded metal forms
- Piping penetrations
- · Crack and joint repair
- · Can be used as a sheet pile interlick sealant
- · Precast segmented sealant

3. FEATURES & BENEFITS

- Ultraseal P-201A will expand up to two times (100%) by volume in the presence of water, in the direction of least resistance.
- When expansion is inhibited, Ultraseal P-201A will produce expansion pressure against the resisting substance, effectively sealing off water penetration.
- Creates seals between prefabricated elements.

4. AVAILABILITY

Immediately available from your local Tremco Sales Representative, Tremco Distributor or Tremco Warehouse.

5. PACKAGING

Ultraseal® P-201A: 10 oz cartridges, 24 cartridges per case

6. WARRANTY

A repair or replacement warranty is available on all Tremco products. Visit https://www.tremcosealants.com/warranties/ for details.

TYPICAL PHYSICAL PROPERTIES	
PROPERTY	VALUES
Appearance	Light gray mastic
Specific weight	1 g/cc
Volumetric expansion in water	Approximately 100% (2 times by volume)
Polymerization @ 68 °F (20 °C), 60% RH	< 10 hr

TYPICAL PHYSICAL PROPERTIES

Water tightness

1 atm
